

WHY SUPPORT SUMMIT 2005?

Women represent 51 percent of the Commonwealth's population. When quality of life standards are measured, Kentucky women typically fall within the bottom half of our states. Kentucky has been ranked the third worst state for women regarding:

- higher education
- economic autonomy
- employment and earnings
- political participation
- overall well-being

On June 17-18, 2005, an expected 400 participants from across the state will meet in Frankfort to help direct Kentucky toward progress in improving the economic status of Kentucky women. The Summit program will:

- Showcase regional activities and new projects that have been started across the state
- Provide facilitated break-out sessions where regions will come together to determine strategies and priorities for continuing their progress
- Offer how-to workshops and information sharing sessions
- Feature nationally recognized speakers to address the issues crucial to moving Kentucky forward
- Exhibit and celebrate the works of Kentucky women artists at a fun Friday evening networking event
- Honor and recognize individuals, businesses and organizations at the Saturday Awards Luncheon
- Celebrate the successes and diversity of all Kentucky women

A significant portion of funds raised for Summit 2005 will go toward providing scholarships. These scholarships, covering registrations fees and accommodations, will help to ensure Summit participation reflects all Kentucky women. This could not be accomplished without the availability of scholarship money.

.....
All contributions are tax-deductible and should be made payable to:
